

VF-15H High precision cleaver

Description

VF-15H High Precision Cleaver is an instrument for high precision fiber cutting. VF-15H High Precision Cleaver is installed with universal holder which is applicable to 250µm fiber cable, 900µm fiber cable, flat cable, and fiber jumper cable. It is widely used for fiber cutting and especially more focusing on FTTx field. It also has an automatic collector for fiber shards and off cuts. The blade provides over 48,000 cleaves by easy and simple blade position selection. Additionally, it has an automatic collector for fiber shards and off cuts.

Features

- With patent universal holder, applicable to 250µm fiber cable, 900µm fiber cable, flat cable, and fiber jumper
- Easy-step operation to complete the cleaving and collection of waste fiber shards automatically
- Convenient and quick to operate. Either hand-held or on table/worktop surfaces
- Very easy fiber setting and placing and, no need for blade height adjustment, therefore improving work efficiency and low maintenance cost
- Smart design of pressure pads preventing the fiber from damage by the return of the blade carriage
- Each point of the blade can be used not only over 3000 times, but each blade has 16 cutting points, providing over 48,000 cleaves
- Made for magnesium alloy materials, giving high strength and stability. Small, compact size and light weight

Specifications

Technical Specification

Dimension : 81W*72D*62H(mm)

Weight : 350g

Type : 0.25~0.9mm(Single fiber)

Fiber diameter : 0.125mm

Length : 6~20mm(Single fiber)

Cleaver angle : 0.5 Degrees with single fiber

Life of blade : Total 48,000 cleaves (1,000 fiber for 1 step * total 16 steps * 3 heights)

Operation steps : 2

Reclaim function : Blade pushback

Holder : Universal holder

Applicable fiber : 250µm fiber cable, 900µm fiber cable, flat cable, and fiber jumper

Package

	MODEL NO.	QTY.
VF-15H High precision cleaver	VF-15H	1
Case	-	1
Manual	-	1
Automatic trash bin	-	Optional
